Boston, Mass. Nov. 5.—At the close of polls at New Bedford, the vote is as follows: Talbot, 2191; Butler 1349. Last year Gaston had a majority of 71. The returns from several towns in the 1st district give Talbot 1762 majority and in five towns in 2nd district 996 majority. The Journal says the republican State Central Committee have received returns which indicate that Butler is defeated by at least 40,000, and says the re-election of B. W. Harris to Congress in the 2nd district by a large majority is assured. Newbury Post gives Butler a majority. Talbot is ahead at Hanesbill, with a close vote, but indications point to a majority for him at Fall River. Talbot, a rainst a large Butler vote, is going better than expected. He is ahead at Medford, Hingham, Malden, Watertown and Newton. At Taunton, Talbot leads in all the wards save 3, where the Butler vote at noon was about 2 to

### Sunday Fire in Wilmington.

At 3:15 p. m. Sunday fire was discov ered in the Review office. Eight minutes after the alarm was sounded, the Little Giant company appeared on the scene, followed almost immediately by the Cape Fear engine and the Hook and Ladder company. The Little Giant had the first steam, and in a short time there was nothing left of the fire but smoke.

The fire originated in the store of J. W. Alderman & Co., but its origin is not known. This firm estimates its less at \$1,500, which was covered by an insurance of \$1,000 in the Fire Association of Philadelphia and \$500 in the Springfield, of Springfield, Mass.

Charlotte Home. The cry is coming up even here from every part of this once happy land, the paradise of women where plenty once resigned, give us work, as we must struggle for existence. Agricultural pursuits engross the greater proportion of our population, hence there are but few manufactories suited to the feeble strength of women and children. But still there are many manufactories employment to thousands. Straw plaiting for example, is a light and easy work; 6,000,000 straw hats were made in Massachusetts in 1865, giving em-ployment to ten thousand of her people Ryo straw is generally used after being cut, soaked in water and then dried. It is said that in Philadelphia \$6,000,-000 are annually made in straw goods alone, and \$4 to \$5 is made per week by the operators. It is called a "nail gun," and is used for nailing down flooring boards. We have seen the implement in use, and, so far as we are able to judge, it is quicker in its work, and insures greater cleanliness than hand nailing could do. The appearance is not unlike a gun in shape and is about the same length. It is kept in position by the foot and kuee, and the nail to be placed (point down) in an aperture at the tep of the concern. NATIONAL BANK NOTES.

#### Nearly the Entire Amount in Circulation.

demption bureau is of considerable interest this week, as showing the large decrea e in the receipt of these notes from the New York banks. These banks receive a larger part of the circulation of the National bank notes than any others, as besides their own circulation which is very large, they borrow any of the surplus, which the country banks may hold Heretofore country banks may hold Heretofore they have been accustomed to make up large packages of notes and send them to the Treasury for redemption, receiving legal tenders in exchange, in this way largely reducing the actual number of bank notes in circulation. Last week there was received from New York \$129,000 of these notes, as compared with \$823,000 of the same period last year. The weekly statecompared with \$823,000 of the same period last year. The weekly statement of the entire receipts show that nearly the whole amount of National bank nvtes is in circulation, a condition of affairs which has never been so nearly attained since the foundation of the present banking system as at this period. This does not indicate that there is a larger amount of money in circulation, as there is a corresponding decrease in the amount of legal tenders. decrease in the amount of legal tenders in actual circulation. There has been no statement made of the condition of the legal tender reserves of the banks since last month, so that it is impos-sible to show this ballancing of the two circulations by official figures, but it is believed that the seventy millions of legal tenders held then by the banks has been largely increased, and if they co-operate with the Treasury, as Sec-retary Sherman believes they will, the resumption of specie payment will thereby be greatly facilitated. The amount of legal tenders now in the Treasury and withdrawn from circulation, including the five per cent. fund for the redemption of bank notes, and the amount held by disbursing officers and for the redemption of the fractional currency, amounts to between eighty and ninety millions, and added to this are the reserves Leld by the banks, which have been increased so rapidly of late that they are now be-lieved to amount to nearly one hundred millions. According to the last debt statement there is in round numbers \$347,000,000 of legal tenders outstanding; allowing that the banks and the treasury held together \$185,000,000, there remains \$162.000,000 outstanding to be redeemed. The amount of gold now in the Treasury over and above all coin liabilities is \$137,000,000, as stated by Secretary Sherman in his speech at Cumberland.

#### Most Wonderful Ca the World.

dence Washington Gazette. LURAY, PAGE COUNTY, VA., October 31 .- Your correspondent to day visited what will be characterized by all who may see it the most wonderful subter-ranean cavern which has ever been discovered on this continent. Whilst I had heard many graphic descriptions of its grandeur and magnificence, and was fully prepared to see something far surpassing anything I had ever be-for witnessed, I am ready to confess that it was greatly superior to any-thing I had conceived, and felt struck with the remark of an intelligent farmer of this county, who, when asked what he thought of it, simply replied

that it was-"Powerful!" THIS WONDERFUL CAVE is situated about one mile west of this of small things that might be estab-lished at a small cost, which might give months ago by the present owners, months ago by the present owners, Messrs. Campbells and Stebbins, who are citizens of this town. They have expended a considerable sum of money in the erection of steps and bridges, and construction of walks through the cave, in every direction, in order that visitors may, without the slightest discomfort or inconvenience, be enabled to explore and examine every part of it. The ground floor is in many places covered with stalagmites,

#### The Grandest Enterprise of Modern Times---The Western N. C R. R.

Correspondence of the Biblical Recorder-

This road is intended to be the shortest line from the Great West to the Seaboard. When completed we will have a direct line from Cincinnati to Morehead City. This is one of the grandest enterprises of modern times, and the engineering is not surpassed by any on the globe. Western slepe was 1,200 feet above the Eastern base, while on the top it is 2,300 feet above the s.a. So it was found impossible to get on the Western side by tunnelling the mountain unless a higher elevation could be reached. This has at last been done. By gradual approaches, at an average grade of 110 feet to the mile, at a distance of 10 miles including curvatures and zigzags, crossing and recrossing deep chasms and gorges along Mill creek, on the summit, it reaches the desired elevation at the big Tunnell. Those who would like to enjoy the pleasure of every like to enjoy the pleasures of an In-dian Summer, when the varigated hues of the disappearing foliage enhance the magic of the scenery, would never regret an excursion now to the road. Arriving at the entrance of the tunnel, we met with the Governor and others on a tour of inspection. We joined them, and being seated on a flat or dirt car, with umbrellas and lamps we all proceeded to explore this subterranean vault. Streams of water come pouring from the rocky ceilings above us, and on all sides, sulphurous smells greeted our olfactories, reminding us of Virgil's description of his hero's visit to the realms of Pluto. Far in the interior the convicts were at work. The bellows and the forge were plied by the tawny sons of Vulcan. The srokes of the heavy sledge, the sparks and the flashes of light from the

GENERAL Sherman thinks we should have an army of sixty or seventy thousand soldiers to protect us against Indians. Under the present plan of Indian management possibly General Sherman is in the right. But a regiment or two of honest men for Indian agents and scrupulous good faith on the part of the Government will be a cheap substitute for the soldiers. The proof that this kind of management is feasible is not far to seek. The Canadian Government furnishes us an example of justice and economy, by comparison with which our system is but little less than barbaric.

It was not long since several cases o arsenical poisoning were traced to the wearing of scarlet and blue stockings. Next came a case in which the mischief was traced to a higly colored hat lining. More recently English and German papers have called attention to dangerous gloves. In the London Times a writer describes the poisonous effect of a pair of the fashionable "bronze green" silk gloves, when worn by a member of his family. A German medical journal reports a case of serious poisoning by a pair of navyblue kids. Dress goods of woolen silk and cotton have been found to contain arsenic in dangerous quantities; so also gentlemen's underclothing, seeks, hat linings and the linings of boots and shoes. Professor Nichols, of the Massachusetts Institute of Terh nology, reports the examination of a lady's dress which contained eight grains of arsenic to the square foot. In Troy, N. THREE CHILDREN IN THREE MES JOE PERSON :

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not head the opportunity to answer it. I derive head that is within my power towards getting you patients for treatment of Scioula. I hardly know how to express my grantude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking cut again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Sciofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly, WM. H. ARKINGION.

It gives me much pleasure to be able to state that I have derived an effectual cure of scrowla from the use of Mrs. Joe Ferson's remedy for that disease. I had suffered from Scrolula for more than three years, and had despailed of ever getting well. I was treated during that time by three very emine t physicians, without any good result. I then went to the National Surgical Institute, at Arlanta, Cia., and was treated there more than two months, with no better result than my family physicians met with. After returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to he i, and the color of my skin changed as fast a the sores healed. I had not thought of ever getting well again, but my hopes increased, my low sp. ritedness fied before the remedy, and I am now entoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong ton to it will heal the most stubborn sore in three weeks if taken legularly. It is my opinion that it should be taken some time siter the sore is haled, to remove the cause of its effects. It should be taken some time after the sore is haled, to remove the cause of its effects, It should be taken some time siter the sore is haled, to remove the cause of its effects, It should be taken some time siter the sore is hould be taken some time siter the sore is should be taken some time siter the sore is should be taken some time siter the sore is should be taken at eady made would c. mmence to retrograde, and for this alone it should be taken at the proper time. I would recommend to all who are suffering from scrofula to try it. It will surely cure you it you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and J am under many and Lesting obligations to Mrs. Ferson for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I a "It will Care if Fairly Tested."

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier, it is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOR PERSON:
Dear Madam—I have been using your Remedy for scrofula over five mouths as an experiment for cancer. The cancer is of longstanding, the doctors have been treating it, more or less, for twelve years, it has taken off my upper 'ip and a good part of my nose. When I beg us to use, your keemed yit was growing rapidly worse, but the medicine seemed to check 't very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart. an irregularity in its action. It would miss every third beat for hours, then st ether times it would increase in its action, and run up to 2h' beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine As a Tonie and alterative, i do not think it has any superior I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. ## Will They Indict?

Some one queries whether the grand jury will, as before, indict the city for the careless keeping of the streets. The street laborers throw the rocks from the gutters into the centre of the roadway, and make a dangerous bit of work. These complaints are made by parties who know the facts, they assert.

## The Election.

The election in the city passed off quietly, exciting but little interest. There were no disturbances. The cigar box primary election boxes were not in use at two of the following places and the vote at the others was almost nothing. The results are given elsewhere, showing Davis, 772; Turner, 892; Jones, 140:

## Elegant Residence.

The erection of what is to be one of the finest residences in the city has just begun at the corner of North and Blount streets, to be occupied by Dr. Wm. J. Hawkins. The specifications and plans are for a wooden structure of three stories, with mansard roof, to contain twenty-five rooms. The cost is estimated at \$20,000. A splendid apple crop can fortunately now be disposed of to much better advantage than formerly. An extensive European demand for our apples has grown up within recent years, and this autumn we are exporting more of thea than ever before, though the prices are very low, running from 75 to \$1.62 a barrel, according to quality, so great is the supply. Vast quantities of apples are shipped

regularly to Europe by steamer. The manifest of one vessel from this port last week showed that she carried 4,671 barrels, and all the outgoing European steamers are weighted with them. A Boston steamer took 5,000 barrels last Wednesday, the largest shipment of apples ever made from that port. ### Newbern Enterprise.

Nut Shell, Nov. 4th. The plate factory of our enterprising townsman, Captain S. H. Gray, is in full blast, and in a few days the mer chants of Newbern will te so plentifully supplied with neat wooden butter plates of all sizes that it will be wholly unnecessary for our citizens who buy butter in small quantities to send a dish when purchasing that article. There are not many cities in the Old North State ahead of Newbern. We now have a cotton factory, a tobacco factory, two cigar factories, a candy factory, a bucket and handle factory, two buggy and carriage factories, two sail lofts, and a butter plate factory. An ice manufacturing establishment will probably be the next enterprise.

## Our Buyer.

It is very difficult for a merchant to make a trip to New York, buy goods cheap, and return immediately. For this reason Law's China and Silverware establishment (Raleigh and Charlotte, N. C.) has a buyer constantly on hand in New York picking up crockery, glassware, or anything in their line cheaper than regular prices. Greater inducements are offered now in sterling silver plate than ever before.

## A Remarkable Besult. It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact

that German Syrup is the only remedy that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages. Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. To such we would say that 50.000 dozen To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bot-tle. Regular size 75 cents. Sold by all
